Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the debug port of claim 89 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 103

2. Claim 21 is rejected under 35 U.S.C. 103(a) as being unpatentable over Segalowitz (5511553) and Reining (5505209) and further in view of Stutman et al (5576952).

It would have been obvious to combine Reining with Segalowitz for reasons mentioned in the previous office action. To use a networking protocol adapted for the delivery of packetized data, as shown by Stutman col. 4:25-50, would have been obvious since it is well known in the art that such remote communication ability is standard in the art for error free communications.

3. Claims 95-98, 101 are rejected under 35 U.S.C. 103(a) as being unpatentable over Segalowitz in view of Stutman et al.

Re claim 95, it would have been obvious to use the network protocol of Stutman with the device of Segalowitz for reasons mentioned supra. Re claim 101, Stutman also teaches using a plurality of devices 15 which can communicate with a central device 12 for analysis and display of data. To use a plurality of ICG modules which can communicate with an external monitoring device is considered to be obvious in view of Stutman since to process more than one patient at a time is more efficient than using the device solely for one patient.

4. Claims 89-93 are rejected under 35 U.S.C. 103(a) as being unpatentable over Segalowitz in view of Monroe et al (6820049).

Monroe teaches the use of a debug port, col. 15:35. It would have been obvious to use such a port with the device of Segalowitz since such would facilitate correcting software modules, as taught in Monroe.

5. Claim 88 is rejected under 35 U.S.C. 103(a) as being unpatentable over Reining in view of Lin et al (6246907).

To use a rack to be able to neatly store equipment is considered to be obvious in that such are commonly used in a hospital setting to avoid persons knocking into the equipment. See Lin col. 3:16-19.

Allowable Subject Matter

6. Claims 1-15,17-20,102,32-35,40-42,46-48,87,94,99,100,104,105,60-68,70,74-79,103 are allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
